

ENHANCING OUR WEBSITE

An up to date look, a fresh start

Taking care of our own

It is Moto Health Care's goal to incorporate our pay-off line "Taking care of our own" into every aspect of our Fund and in everything we do. With so much competition in the medical scheme industry, we recognise that the way the market perceives our Fund is of the utmost importance. We are well acquainted with the importance of web based marketing for greater exposure.

The Moto Health Care website has an updated look and feel throughout. We incorporated content relevant to members; our own photos; information regarding our network doctors with their details, our education consultants and their details, as well as information on all our options and benefits; all the latest communication and marketing initiatives and so much more.

We believe that the website with its content will inform and support our competitive abilities as well as enhance our reputation as a Fund that exists exclusively for those in the retail motor industry.

Visit us at www.motohealthcare.org.za for our new updated website and let us know what you think by sending us an e-mail to: news@motohealthcare.org.za
